

Preterm Birth International Collaborative (PREBIC) 2010
CONFERENCE and WORKSHOP

2010 PREBIC conference and workshop will be held in Geneva at the World Health Organization campus.

Meeting dates: April 26 – 28, 2010

Conference will begin at 9 a.m. on Apr 26th and end at 11 a.m. on Apr 28th.

Program agenda accommodations: Scientific program agenda and hotel information will be mailed to all registered participants by end of March.

PREBIC will provide up to 3 nights stay in Geneva (25th, 26th and 27th nights) that will include breakfast and dinner.

Registration: Invited participants are required to register if planning to attend PREBIC. As we can only accommodate a limited number of participants, you must register **before March 15th 2010.**

PREBIC working groups*: on the registration form please select your 3 preferences from the following list;

1. Epidemiology of preterm birth and intervention strategies.
2. Pathways of preterm birth.
3. Systems Biology in preterm birth.
4. Biomarkers of preterm birth.
5. Immunobiology and animal models in preterm birth.
6. International studies and global partnerships in preterm birth.

*List of working groups are not final and may be changed. Only limited number of participants can be accommodated in each working groups and this will be decided on first come first serve basis. Early registrations are encouraged.

Registration fee: A non refundable fee of \$150 will be required at the time of registration. Please make checks or money orders payable to PREBIC and mail it to
